

Examples of `paresse` package usage.
le T_EXnicien de surface
2008-08-12

This file loads the `amsmath` package and, if it locally exists, the `lmodern` package.

Caution: the `paresse` package is loaded with the option `tame` to show the usage of macro `\ActiveLaParesse` and environment `ParesseActive`.

With the macro `\ActiveLaParesse` to make the § character active.

```
{\ActiveLaParesse
\($a^{ $b }_{ $g }\) and also \($D^{ $a }_{ $d }\)
}
```

to obtain: α_{γ}^{β} and also Δ_{δ}^{α}

With the environment `ParesseActive`.

```
\begin{ParesseActive}\large
\begin{tabular}{*4{||>\ttfamily \S}c|c}||| \hline
a & $a & b & $b & g & $g & d & $d\\ \hline
e & $e & z & $z & h & $h & v & $v\\ \hline
...
X & $X & P & $P & S & $S & U & $U\\ \hline
F & $F & Q & $Q & W & $W & \multicolumn{1}{c|}{& } & \\ \hline
\end{tabular}
\end{ParesseActive}
```

\$a	α	\$b	β	\$g	γ	\$d	δ
